OUR HISTORY

The very first property treated was in the City of Elizabeth, New Jersey in 1935. Arthur Williams, a PHD in chemistry, started in the industry as a termite control consultant. He was well respected for his knowledge generated through his experience protecting against termites and other wood destroying insects. Demand for his services grew throughout the decades and in 1962, AMCO Pest Solutions was incorporated and has gone on to serve the needs of property managers, homeowners, businesses, and industries to this day.

Our technicians and staff not only meet but exceed the standards of the Quality Pro and National Pest Management Association. Our staff is rigorously trained and retrained in the latest methods to ensure the most complete and precise applications.

Pest Solutions, Inc.

OUR PRESIDENT

George J. Caso is our President at Amco Pest Services, Inc. He attended Santa Fe College, the University of Florida, The Medical Arts Training Center and Ocean County College. George has degrees in

Health Sciences and Business Administration and has attended Rutgers College for numerous certificate courses in all disciplines of entomology.

He attended specialty classes and seminars at various accredited institutions throughout the United States. George is an active member on CAI Committees

George is a fourth-generation pest control specialist with over 24 years of experience licensed in Florida. His expertise lies in bed bugs, rodents, all wood destroying insects, as well as hard to diagnose pest control issues. He specializes in condominiums, hospitals and nursing homes, schools, government buildings/institutions, and residential properties.

George teaches Bed Bug Detection classes to property managers and maintenance managers in multiple states; and is also one of the first exterminators to detect and eliminate bed bugs in a high-rise facility during the present bed bug epidemic which started in 2003.

APARTMENT COMPLEXES

AMCO presently services over 200 community associations throughout New Jersey, New York and South Florida.

AMCO Pest Solutions, Inc. provides all phases of pest and wildlife management. We will customize a tailored maintenance program to fit the needs of your community.

CONDOMINIUMS & TOWNHOUSES

We currently service over 200 apartment complexes and communities throughout New Jersey, New York and South Florida.

We offer the highest level of customer service with the most thorough pest management programs tailored to meet and exceed your most stringent expectations in all phases of pest and wildlife management.

*The Mark of Excellence
in Pest Management*

OUR VICE PRESIDENT

Hank Johns is our Vice President here at Amco Pest Services, Inc. He is well-known in the Pest and Wildlife industry and brings over 26 years of experience to our team.

Hank has always been on the forefront of business evolution, training and managing office staff and technicians in both industries, including the Home Construction industry. He has been involved with many organizations, such as CAI, IREM, BOMA, NJWDCOA, and NJBA. Having several years' experience on the Community Management side-of-the-desk, Hank knows what it takes to service your community and ensure your residents are happy and well taken care of. Hank has spent many years dedicated to Customer Service and truly believes that Honesty is always the best policy.

"Helping someone to understand more about what they should be looking for in a service, or why a particular action should be taken, is the key to developing a strong and fruitful relationship between myself, my clients, my co-workers, and my employees."

- Hank Johns
