# OUR SERVICES:

## WATER EXTRACTION AND MITIGATION

*WeDry USA offers 24/7 water extraction and water mitigation, with a rapid response in less than 1 hour. Our team tackles all water damage issues with advanced, non-invasive drying techniques, aiming for rapid restoration to pre-loss conditions.*

## FIRE DAMAGE RESTORATION

*Professional rapid fire damage restoration and smoke cleanup demand expert care. Our IICRC-certified technicians specialize in restoring properties impacted by any fire type, offering quick responses to reduce additional damage and health risks.*

## MOLD REMEDIATION

*Mold can grow on common surfaces posing significant health risks. It starts within 24-48 hours of moisture exposure, requiring careful removal and remediation to prevent spore spread.*

## ROOF TARPS

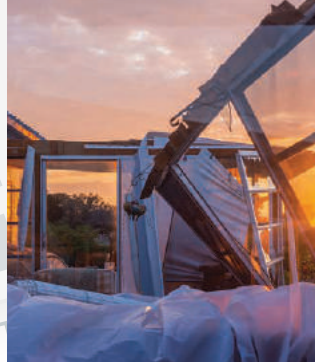

*For reliable roof tarping solutions after high winds, hail, or hurricanes, call WeDry USA. With a specialization in installing roof tarps for leak or storm damage, our expertise comes from handling thousands of tarps, ready to meet community needs.*

## LEAK DETECTION

*Our experts specialize in detecting all types of leaks from water heaters to AC and plumbing, using advanced technology for accurate, non-destructive identification. This efficiency saves time, reduces costs, and prevents further property damage.*

## DISASTER RECOVERY

*For expert storm damage restoration and cleanup after hurricanes or tornadoes, turn to professionals with extensive experience in helping cities recover from natural disasters. We are committed to quickly restoring daily life with minimal disruption to residents.*

## SEWAGE CLEANUP

*Immediate action is essential for sewage backups, requiring 24/7 cleanup due to the biohazard risk of contaminated water. Special procedures are needed for properties exposed to black water from sewage or toilet backups to mitigate health hazards efficiently.*

## RESTORATION

*WeDry offers top-notch restoration services, backed by over 30 years of experience in the industry. Capable of managing both small and large projects, we excel in properties restoration after water fire, or mold damage.*
