At Almstead, we understand that managed care is the only cost effective approach to a beautiful landscape. Almstead is one of the most trusted names in total property care for landscapes. We provide a complete array of managed care solutions combined with expert guidance to ensure you meet your landscape objectives.

Well maintained and beautiful landscapes create a welcoming and tranquil ambiance for residents and guests. Prospective buyers or renters are also drawn to properties that have curb appeal. As a full-service tree, shrub and lawn care company, Almstead offers a one-stop solution for all your property's needs. We work with community boards and committees to create a program that fits into your budget. Our arborists are available to attend board meetings and site visits with board members on request. We also have relationships with other complementary service organizations and can orchestrate projects of any size.

Our team of certified arborist and technicians specialize in designing long-term programs that preserve and enhance your existing property, while avoiding costly removals and replacements. When you choose Almstead to manage your property you will have over 50 years of expertise working for you. We'll keep your property safe and beautiful for your residents and guests throughout the year.

*Ask your arborist to develop a customized program that is specific to your property.*

*The science of preserving nature since 1964*

TREE, SHRUB & LAWN CARE

## COMMERCIAL SERVICES

### Multi-Family Residential Communities

**Our clients include:**

- Home Owners Associations (HOAs)
- Privately Managed Communities

Almstead understands the special needs and concerns of residential communities. Our goal is to make the most of your property by keeping the area attractive, safe and secure. From consulting services to the design and implementation of complete plant health care programs, our arborists provide the expertise you need to meet your objectives and work within your budget.

Each arborist is a knowledgeable source of information about the tree and shrub species within your landscape. Our training and education seminars, usually complimentary, are a valuable resource that can provide you or your staff with the guidance you require.

At Almstead, we are accustomed to working closely with owners, property managers, superintendents, as well as committee and board members to achieve the goals of this diverse community. We can recommend long- and short-term strategies for improving individual tree health, as well as improvement of your overall landscape.

We invite you to experience a level of professionalism, service and care beyond comparison. At Almstead, we're changing the nature of tree & shrub care.
