

Property-Wide Managed WiFi

Who We Are

We believe in delivering the connectivity experience your buildings and residents deserve. This means a seamless property-wide connection for your residents, building management team, and guests. Our lightweight installation will deliver the latest home Internet technology to your community.

Our Impact

"Once we've installed our system in a building, residents are able to be up and running in minutes. Additionally, the increased usage of smart devices and IoT applications in MDUs requires a superior connectivity foundation. that a partnership with Andrena can provide."

Neil Chatterjee, Andrena CEO

Building Operations

Streamline operations and improve NOI with complimentary connectivity for smart-building and IoT applications

Improved Resident Experience

Residents have Internet access on move-in day, and can stay connected to their personal network throughout the property

Amenity Access

We gladly provide complimentary WiFi connectivity for indoor and outdoor amenity spaces from pools to co-working spaces
