

GAF

Commercial

GAF supporting all your roofing needs.

**We
Protect
What
Matters
Most**

**One more
way we're
building a
better GAF
Commercial
around you.**

GAF protects what matters most. More homes and businesses in the U.S. are protected by a GAF manufactured roof than by any other product.

As we build a better GAF Commercial around you, we're working harder to make roofing easier, with:

- ▣ Easy-to-install EverGuard® SA TPO — up to 60% faster* than GAF solvent-based bucket adhesives*
- ▣ EverGuard® Quick Spray for faster installation than traditional solvent-based bonding adhesive
- ▣ A new Split Pourable Sealer Pocket to save on fabrication and sealant
- ▣ And more...

* According to GAF head-to-head testing under controlled laboratory conditions

Finding out more is easy, too:
