Company Profile

The staff of KPI2 Contractors, Inc. has been serving Pennsylvania and New Jersey since 1997. We take pride in developing a long-term relationship with each of our customers to make sure the right system is selected for their individual specific needs. KPI2 Contractors, Inc. offers experience and resources to handle all your roofing and siding needs. KPI2 has been moving in a positive direction with a highly trained, friendly, professional office staff to assist you with any questions. KPI2 owns their own equipment, such as: dumpster roll off truck; two 55 Boom trucks; Back Hoe; two Bobcats; as well as a fleet of pickup trucks. We have been working with condominium associations, homeowners associations, community associations, apartment complexes, and residential property owners for over 12 years. We only use the highest quality products and, regardless of size, each project is completed on schedule and within budget.

KPI2...We get the project done right the first time!
